

Practical Action Publishing recognizes that the ability to publish Open Access can be a desired and/or mandated access status for our authors and partner organizations.

Gold access for books

Post acceptance, authors who have indicated an Open Access requirement will be asked to pay a Book Processing Charge (BPC). Funding for this may be available as part of the original research project or from an author's institution. Payment of the BPC ensures that a paginated PDF of the title is freely available in perpetuity and in its final published form, from the moment of formal publication. The title will also be maintained as part of the scholarly record and benefit from inclusion in industry standard archival and preservation initiatives. Authors can choose from a variety of Creative Commons licenses or all rights reserved. All Open Access books are subject to peer-review, both at the proposal stage and when the full manuscript is complete.

Book processing charges start from \$12,000 | £6,000 | €9,000

For more information visit www.practicalactionpublishing.org/open-online

Gold access for journal articles

All Practical Action Publishing journals, post acceptance offer authors the option to publish their article Open Access. Payment of the Article Processing Charge (APC) ensures that the article is freely available in perpetuity and in its final published form, from the moment of formal publication. The article will also be maintained as part of the scholarly record and benefit from inclusion in industry standard archival and preservation initiatives. Authors can choose from a variety of Creative Commons licenses.

Article processing charges start from \$1,125 | £625 | €750

For more information visit www.practicalactionpublishing.org/open-online

Green access is also available for journal article authors who are free to use their article for internal educational or other purposes within their own institution or company. For full details please visit www.practicalactionpublishing.org/open-online
